# **Forsyth Barr Australian Equities Fund** Forsyth Barr Investment Funds Fund Update as at 31 March 2017

This fund update was first made publicly available on 1 May 2017.

### What is the purpose of this update?

This document tells you how the Forsyth Barr Australian Equities Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Forsyth Barr Investment Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

The Forsyth Barr Australian Equities Fund invests in Australian shares. We aim for positive long-term returns. These kinds of investments will typically have very high levels of movement up and down in value.

Total value of the fund	\$10,219,780
The date the fund started	26 June 2008

# What are the risks of investing?

Risk indicator for Forsyth Barr Australian Equities Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <u>www.sorted.org.nz/tools/investor-kickstarter</u>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

#### Annual return graph

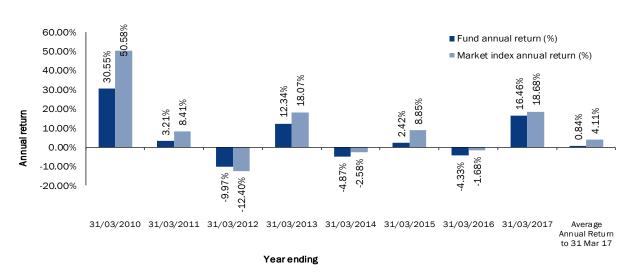

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 31 March 2017. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	4.05%	16.46%
Annual return (after deductions for charges but before tax)	4.81%	17.43%
Market index annual return (reflects no deduction for charges and tax)	7.88%	18.68%

The market index return is based on the S&P/ASX Accumulation 200 Index unhedged to New Zealand dollars. Additional information about the market index is available on the Forsyth Barr Investment Funds' entry on the offer register at <u>www.business.govt.nz/disclose</u>.

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2017.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

# What fees are investors charged?

Investors in the Forsyth Barr Australian Equities Fund are charged fund charges. In the year to 31 March 2016 these were:

	% of net asset value <sup>1</sup>
Total fund charges	1.31%
Which are made up of:	
Total management and administration charges including	1.31%
Manager's basic fee	1.27%
Other management and administration charges	0.04%
Total performance-based fees	0.00%
	Dollar amount per investor
Other charges	\$0.00

Investors may also be charged individual action fees for specific actions or decisions (for example entry fees). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

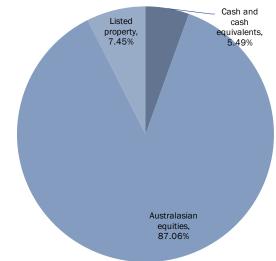

#### Example of how this applies to an investor

Jane had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jane received a return after fund charges were deducted of \$1,646 (that is 16.46% of her initial \$10,000). This gives Jane a total return after tax of \$1,646 for the year.
